

York Childcare: Josephs /Scarcroft Green / Heather's Nursery Risk Assessment

Epidemic & Pandemic Diseases COVID19 Operational Procedures WEF 17 December 2021

THIS RISK ASSESSMENT IS TO BE USED IN CONJUNCTION WITH GOVERNMENT, UK HEALTH SECURITY AGENCY & NHS GUIDANCE AND ADVICE.

Area of risk	Possible Hazards	Group of people especially at risk	Controls	Risks which are not adequately controlled. What action would you take where possible to reduce the risk
Hygiene Hand washing, cleaning, waste disposal, laundry etc.	Spread of COVID19 & other diseases	Children & Staff	<p>All children and staff must wash their hands upon arrival at the nursery.</p> <p>Children and staff members should be encouraged to wash their hands frequently. Children & staff will use paper towels to dry their hands.</p> <p>Frequently touched surfaces should be wiped down at least twice a day, and one of these should be at the beginning or the end of the working day.</p> <p>Communal area touch points, such as door handles, light switches, handrails, and hand washing facilities must be cleaned and sanitised regularly.</p> <p>All waste must be disposed of in a hygienic and safe manner. Tissues must be immediately disposed of.</p> <p>Laundry items should be washed in accordance with the manufacturer's instructions. There is no</p>	Daily risk assessments and checks revised to ensure adequate measures have been taken.

Revised 17/12/21 in accordance with the most recent guidance issued from government: <https://www.gov.uk/government/publications/coronavirus-covid-19-early-years-and-childcare-closures/actions-for-early-years-and-childcare-providers-during-the-covid-19-pandemic>.

			<p>additional washing requirement above what would normally be carried out. Where cloth towels are used, these should be for individual use.</p> <p>Children should be supported in age-appropriate ways to understand the steps they can take to keep themselves safe including regular hand washing and sneezing into a tissue.</p>	
Health & Safety & Risk Assessments	Spread of COVID19, infections, diseases, accidents etc.	Staff & children	The suspension of the sharing of food and utensils will continue.	
PPE	Spread of infection	Staff, children & parents	<p>The government has reinstated the requirement to wear face coverings as a temporary measure. Staff will wear face coverings while moving around the premises, in corridors and communal areas. When local incidence remains higher than the national average, parents should continue to wear a face covering if entering the nursery lobby during drop-off and collection of their children <u>and</u> if 2 metres between parent and member of staff cannot be maintained.</p> <p>Staff supporting children and families at drop off and pick-up times will continue to wear a face covering when meeting parents at the main entrance</p> <p>Where staff use PPE, they must adhere to the guidance on safe use and removal of masks.</p>	<p>W.H.O adapted guidance on the when and how to use masks.</p> <p>Further information and guidance can be found at www.who.it</p>

			At times when the local incidence is high, staff who work in more than one setting (e.g., agency / supply staff) must complete a risk assessment at the commencement of each work placement: this may result in needing to wear a face covering whilst working.	
Supplies	Spread of infection	Staff & children	A supply of PPE is available at each nursery to ensure it is available if needed.	Each nursery to maintain its own supply of PPE and cleaning essentials.
Attendance	Spread of COVID19	Parents	<p>Only parents who are symptom free or have completed a required isolation period will be able to drop off or collect their child.</p> <p>Parents or household members including siblings who test positive for Covid 19 must ensure their child takes a PCR test. If the child's PCR test is negative and proof is provided to the nursery the child may then continue to attend nursery. The child must take a Lateral Flow Test each day during the 10-day isolation period for the adult/sibling/household member with Covid19.</p> <p>Should parents refuse a PCR test for their child, they must keep their child at home during their 10-day isolation period.</p> <p>https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-</p>	<p>Handovers will continue to be intentionally brief.</p> <p>If a parent or carer insists on a child attending nursery, YC can take the decision to refuse the child if, in our reasonable judgement, it is necessary to protect other children and staff from possible infection with COVID-19. Our decision will be carefully considered in light of all the circumstances and</p>

			<p>for-households-with-possible-coronavirus-covid-19-infection</p> <p>It is preferable if drop off and collection of children can continue a 1 parent per family basis.</p> <p>Staggered drop off/ collection times may continue at peak times.</p> <p>Drop off and collection of children to continue to take place at the nursery entrance / nursery garden to avoid parents entering the nursery unnecessarily.</p> <p>Parents waiting to drop off or collect their child are asked to consider the risks of close contact. Parents may enter the nursery for the purpose of settling in sessions.</p> <p>Parents should be encouraged to ensure they do not leave travel accessories including buggies, car seats, scooters at the setting premises.</p>	<p>current UK Health Security Agency advice.</p> <p>Appointments can be made in advance for Parents / Carers to come into nursery for a brief meeting with members of staff, if staffing levels are sufficient to enable this.</p>
--	--	--	--	--

				Nursery cannot accept responsibility for any items which are left outside the building.
Attendance	Spread of COVID19	Staff	<p>Staff should only attend the nursery if they are symptom free, have completed the required isolation period or achieved a negative test result. Lateral Flow Testing Devices are available for early years staff to use twice a week in accordance with government guidelines.</p> <p>If public transport is used to attend work, current guidance on the use of public transport must be followed.</p> <p>All staff members must receive appropriate instruction and training in infection control, use of PPE, the standard operating procedure and risk assessments within which they will be operating.</p> <p>Maternity risk assessments will include consideration of Covid-related risks with any members of staff who are pregnant.</p>	<p>The health of returning staff will be discussed during a return to work interview.</p> <p>Staff may work in more than one room over the course of a week if required.</p>
Attendance	Spread of COVID19	Children	Only children who are symptom free or have completed the required isolation period following a positive test result should attend the setting.	

			<p>Parents or household members including siblings who test positive for Covid 19 must ensure their child takes a PCR test. If the child's PCR test is negative and proof is provided to the nursery the child may then continue to attend nursery. The child must take a Lateral Flow Test each day during the 10-day isolation period for the adult/sibling/household member with Covid19.</p> <p>Should parents refuse a PCR test for their child, they must keep their child at home during their 10-day isolation period.</p> <p>https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection</p>	<p>If a parent or carer insists on a child attending nursery, YC can take the decision to refuse the child if, in our reasonable judgement, it is necessary to protect other children and staff from possible infection with COVID-19. Our decision will be carefully considered in light of all the circumstances and current UK Health Security Agency advice.</p>
Attendance	Spread of COVID19	Visitors	<p>Visitors entering the building will be required to wear a face covering unless exempt.</p> <p>Visitors Policy and procedures to be followed. Standard risk assessments may be required for contractors and should routinely include assessing any Covid risk.</p>	
Social Distancing/Group work	Spread of COVID19	Staff	<p>Where possible staff should remain with the group of children within their usual place of work.</p> <p>Staff members should avoid non-essential physical</p>	<p>Staff shift patterns may be revised at times to ensure adult / child ratios can be maintained.</p>

			<p>contact with each other including handshakes, hugs etc.</p> <p>As face-to-face meetings are reintroduced, staff are asked to consider the risks of close contact. Meetings and training sessions may still be conducted through virtual conferencing.</p> <p>Where possible access to the kitchen should be limited to the cook.</p> <p>At times when local incidence remains high, staff should wear face coverings when moving around different areas of the nursery when the reason for moving is not as part of a child-based activity (eg to access laundry room / staff room / office)</p>	<p>The number of staff entering nursery kitchens will revert to being those identified as 'necessary'.</p>
Social Distancing/Group work		Children	<p>Children will be grouped in accordance with standard EYFS ratio requirements in age-appropriate rooms within each nursery.</p> <p>Children from different groups may use the outdoor area at the same time.</p> <p>Children who are due to move into a different room will be given opportunities to visit to support their well-being during a time of transition.</p> <p>Distancing of beds/cots may be facilitated when local incidence remains high.</p>	<p>Group sizes and age ranges within rooms may need to vary if staff availability is limited and if numbers of children attending fluctuates.</p>

Resources		Children & Staff	<p>Children are not encouraged to bring items from home into the setting unless essential to their wellbeing. Where this is the case items should be appropriately cleaned upon arrival.</p> <p>Resources required for play and learning experiences of children should be regularly washed and/or sterilised.</p> <p>Activities such as play dough; salt dough and gloop will be risk assessed to consider whether their use will continue at times where the local incidence remains high.</p> <p>Equipment used by staff such as stationary, tablets etc. should be allocated to individual staff teams where possible and cleaned regularly.</p>	Staff members are required to clean items after use.
------------------	--	------------------	--	--

Wellbeing		Staff & children	<p>Staff need to ensure they are aware of children's attachments and their need for emotional support.</p> <p>Children should be supported to understand age appropriately the</p>	Stories/picture books are available free to download.
------------------	--	------------------	--	---

			<p>changes and challenges they may be encountering because of Covid-19.</p> <p>Staff to be mindful that their own feelings and responses to situations may be different as a consequence of the global pandemic.</p>	<p>Staff well-being to be supported through:</p> <ul style="list-style-type: none"> • Providing opportunity to discuss the impact this is having on their job • Encouraging discussion on how they are feeling and general well-being • Encouraging and promoting self-care
Suspected Case of COVID19	Spread of COVID19	Children	<p>In the event of a child developing suspected coronavirus symptoms whilst attending the setting, they should be collected as soon as possible and isolate at home in line with the NHS guidance.</p> <p>Whilst waiting for the child to be collected they should be isolated from others in a previously identified room or area if possible.</p> <p>Where possible, a window should be opened for ventilation.</p> <p>The staff member responsible for the child during this time should be a staff member from their</p>	<p>Outside areas to be used as waiting area where possible.</p> <p>Parents must arrange for their child to be tested via https://www.gov.uk/get-coronavirus-test or by calling 111.</p> <p>Children who receive a negative PCR test result may return to nursery the following day, providing they are well and have no symptoms.</p> <p>Nursery manager to notify all parents and staff by email of any positive cases.</p> <p>Confirmatory polymerase chain reaction (PCR) tests</p>

			<p>room/area. The manager may consider suitable PPE for this staff member.</p> <p>The area should be thoroughly cleaned as soon as possible.</p> <p>Close contacts will now be identified via NHS Test and Trace and education settings will no longer be expected to undertake contact tracing. Contact Tracing staff will now contact parents of children testing positive to identify other potential contacts and will advise of any actions to be taken.</p> <p>If you are a contact of someone who has COVID-19 and you are fully vaccinated, or aged under 18 years 6 months, you are not required to self-isolate unless that person has been identified as a suspected or confirmed case of the Omicron variant of COVID-19.</p>	<p>Staff and children with a positive rapid lateral flow test result should self-isolate in line with <u>COVID-19: guidance for households with possible coronavirus infection</u>. They will also need to <u>get a free PCR test</u> to check if they have COVID-19.</p> <p>While awaiting the PCR result, the individual should continue to self-isolate.</p> <p>If the PCR test is taken within 2 days of the positive rapid lateral flow test, and is negative, it overrides the rapid lateral flow test and they can return to the setting, as long as the individual does not have COVID-19 symptoms.</p> <p>Evidence of the negative LFD test result must be provided to the nursery.</p> <p>Fully vaccinated means that you have been vaccinated with an MHRA approved COVID-19 vaccine in the UK, and at least 14 days have passed since you received the recommended doses of that vaccine.</p>
		Staff	In the event of a staff member developing suspected coronavirus	Confirmatory polymerase chain reaction (PCR) tests

			<p>symptoms whilst working at the nursery, they should return home immediately and isolate at home in line with NHS guidance. The staff member should undergo confirmatory PCR testing and self-isolate for 10 days if they receive a positive test.</p> <p><u>In the UK guidance has changed</u> for people who are contacts or live in the same household as a suspected or confirmed case of the Omicron variant.</p> <p>Early years staff should undertake twice weekly home tests using the LFD kits provided.</p> <p>Outbreak Management Plan Several confirmed cases within 14 days, may be considered an outbreak.</p>	<p>Staff and children with a positive rapid lateral flow test result should self-isolate in line with <u>COVID-19: guidance for households with possible coronavirus infection</u>. They will also need to <u>get a free PCR test</u> to check if they have COVID-19.</p> <p>While awaiting the PCR result, the individual should continue to self-isolate. When the results of the PCR test are returned, it will tell the individual if they are suspected to have the Omicron variant.</p> <p>If the PCR test is taken within 2 days of the positive rapid lateral flow test, and is negative, it overrides the rapid lateral flow test and they can return to the setting, if the individual does not have COVID-19 symptoms.</p> <p>Evidence of the positive LFD test result must be passed on to the nursery. Evidence of the subsequent PCR test must also be provided.</p> <p>People in close contact with suspected or confirmed Covid and/or Omicron variant cases</p>
--	--	--	---	---

			<p>YC has developed an Outbreak Management Plan outlining how to operate if there were an outbreak in one of our nurseries or within the local area.</p> <p>The Nursery Manager should call the dedicated advice service who will escalate the issue to the local health protection team where necessary and advise if any additional action is required. They can be reached by calling the DfE helpline on 0800 046 8687 and selecting option 1 for advice on the action to take in response to a positive case.</p>	<p>Fully vaccinated people in England must immediately take daily lateral flow tests for seven days.</p> <p>Those fully vaccinated people who test positive or develop symptoms should self-isolate for 10 days; such people will not need to isolate if the tests remain negative and they have had at least two vaccine doses.</p> <p>All unvaccinated people coming into close contact with suspected or confirmed Covid and/or Omicron variant cases must immediately self-isolate for 10 days.</p> <p>Contact Tracing Close contacts will now be identified via NHS Test and Trace and education settings will no longer be expected to undertake contact tracing.</p> <p>Instructions from the Test & Trace team may require staff to self-isolate for 10 days if 14 days have not lapsed since receiving a second Covid vaccination or if they are unvaccinated.</p> <p>Reporting COVID-19 cases to Ofsted</p>
--	--	--	--	---

				The Nursery Manager must notify Ofsted of any confirmed cases in the setting, whether a child or a staff member. The manager should also tell Ofsted if the setting needs to close as a result. https://www.gov.uk/guidance/tell-ofsted-if-you-have-a-covid-19-incident-at-your-childcare-business
Premises	Spread of COVID19 & other diseases	Parents, children & Staff	<p>Where premises have been temporarily closed during the lockdown period or where they may need to temporarily close during future lockdowns appropriate Health & Safety checks should be conducted prior to reopening including legionnaires checks.</p> <p>Keep windows and doors open where possible to ensure good ventilation.</p> <p>CO2 Monitors</p>	<p>Water systems to be flushed through on a weekly basis during closure so testing will not be required.</p> <p>Secure grills/fasteners may need to be installed on some doors/windows to reduce risk of intruders accessing building. Staff to ensure children are dressed appropriately should the room be cooler than usual.</p> <p>These monitors are intended to help identify areas that are poorly ventilated, so next steps</p>

				can be explored to improve ventilation. ' How to Guide ' on the DfE document sharing platform for information on how to use the CO2 monitor.
